Corona virus Tunisia

Infected

369,440,775

Sat Jan 29 2022

Number of active cases
from COVID-19.

Recovered

0

Sat Jan 29 2022

Number of recoveries from
COVID-19.

Deaths

5,648,611

Sat Jan 29 2022

Number of deaths caused
by COVID-19.

United States

REACT

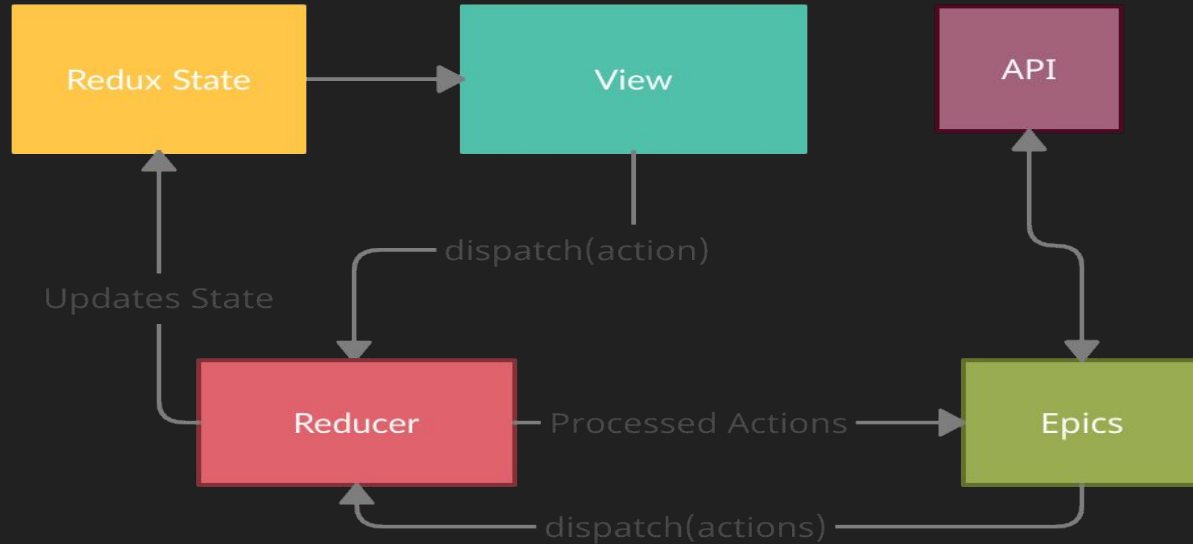

1/npX create-react-app appcovid

2/Extending a Component **allows us to pass props to a user defined class when a constructor is not present like it is in the App class**

```
class App extends React.Component {  
  render() {  
    return (  
      <div>  
        <h1>App</h1>  
      </div>  
    )  
  }  
}
```

Install axios

Making API calls with Redux-Observable and Axios

API

```
import axios from 'axios';

const url = 'https://covid19.mathdro.id/api';

export const fetchData = async () => {
  try {
    const response = await axios.get(url);

    return response;
  } catch (error) {
  }
}
```

Console.log

```
[HMR] Waiting for update signal from log.js:24  
WDS...
```

App.js:12

```

```
npm install --save @material-ui/core
```

[numbers]

Allow to use a lot of different component

Like bootstrap but more sophisticated

Exemple: `import { Card, CardContent, Typography, Grid } from '@material-ui/core';`

MATERIAL-UI

React components for faster and easier web development.
Build your own design system, or start with Material Design.
